TATACHILLA
lutheran college

Term 2 | Week 6 | Friday 23 June 2017

from the **HEAD OF SENIOR SCHOOL**

Week 8 is examination week for students in Years 10 and 11. Students' study in subjects culminates in examinations assessing topics and skills taught in Semester 1. It has been pleasing to observe the maturity of Year 11 students as they have undertaken their tests. Students have been punctual, well prepared by bringing the required equipment and have applied themselves in the time provided. Our Year 10 students have experienced examination week for the first time. While there have been some nerves evident, this cohort of students has also presented themselves in an adult manner during this three-day period of tests.

The big question on many of the students minds at this time is why do we still have examinations? In short – as long as universities and Stage 2 SACE subjects use this mechanism to assess student attainment, then we would be doing a dis-service to students if we did not expose them to the process of examination revision, study preparation and sitting the examinations themselves. The examination process provides rigour that challenges students academically, intellectually and personally. From a practical perspective, students at Tatachilla have approximately five sets of examinations prior to the final Year 12 assessments. When considered in this way, students should adopt the attitude that they are beginning preparation for their final year of compulsory education in Year 10.

Examination results are also used within the College to assist with the upcoming course counselling in Term 3. Results may form part of a pre-requisite for a future course or provide associated information for suitability for new courses. For example, should a student wish to enrol in Business and Enterprise at Stage 2, we expect that they will have achieved a B grade or better in the Stage 1 English examination.

I encourage students to consider the feedback from teachers in classes and on returned examination papers seriously. They are encouraged to talk to teachers wherever possible to seek advice since this is invaluable information that should be recorded and noted for improvement in examination performance in the second semester.

These examination experiences can reveal personal strengths and skills in the way that coursework is unable to. We also recognise that, when new to a student, examinations can challenge. The key with any disappointment in performance, is to consider the long-term opportunities for improvement. I encourage students to be honest in their reflections. If minimal study and revision has been undertaken and a disappointing result has eventuated, students should consider their own responsibility in the process and avoid discounting the situation or blaming. Reviewing results and exploring the reasons for them is a valuable learning experience when it comes to examinations.

I wish every senior student success in their forthcoming results and encourage parents and carers to discuss and reflect upon this information by discussing it together.

Yours in Christ

Mrs Marylyn Marshall
HEAD OF SENIOR SCHOOL

from the **SENIOR SCHOOL**

YR 10 INTEGRATED SCIENCE

Integrated Science is offered as an alternative to the 'Core Science' Program within the school. Although the topics studied are not exactly the same as those in the core subject, the students do cover the required outcomes as sought by the National Curriculum.

Students have successfully completed the semester including some outstanding achievement by students such as **Heidi Smith, Angela Wright & April Mayne**.

The class has studied a range of curriculum topics, including; Biology: DNA & Genetics – we found out that 6 of 17 students in the class are unable to 'roll their tongue'; Chemistry: the water in our Eco-Classroom pond is very healthy – as evidenced by the variety of Macroinvertebrates contained within it, including a 'Dragonfly Nymph' species, whilst many of the exhaust pipes of staff cars are quite clean (although the school mini-bus could do with a service); and Physics (STEM): we watched in awe as the 7 Star Hotel in Dubai, Burj Al Arab, was constructed & applied these principles to constructing our own bridges and structures for testing and evaluation.

Next semester we begin an Alternative Curriculum Unit – 'Forensic Science' which will include: Crime Scene Investigative Procedures: Patterning and Matching Evidence - ABO blood types and fracture matching; and a Serial Crime topic. Students will also be journeying to the SA Coroner's Court and SA Criminal Court for an excursion.

Mr Scott Deverson
YEAR 10 TEACHER

NATIONAL DISABILITY DATA COLLECTION

In Term 3, our College will be taking part in the Nationally Consistent Collection of Data on School Students with Disability (NCCD). All Government, Independent and Catholic schools will be completing this data collection across Australia. This requires the College to provide the Australian Government, Department of Education, with data relating to support provided to students with disabilities.

All information provided to the Department is de-identified and aggregated sufficiently so that no individual student's identity can be reasonably ascertained. The College is currently in the process of collating this information, which will be submitted in August.

If you do not want our College to provide de-identified data about your child to the Australian Government Department of Education, you can 'opt-out'; this involves completing an opt-out form. Please contact Karen Turner on 8323 4403 if you have any further questions or wish to opt out. If you do not advise you wish to opt-out, de-identified information about your child will be included in the 2017 data collection.

Further information about the project can be found at <https://docs.education.gov.au/node/32685>

Mrs Karen Turner
LEARNING ENHANCEMENT COORDINATOR

from the SENIOR SCHOOL

TEACHER FEATURE

PAUL LAMBERT

In this week's edition of the newsletter, Mr Paul Lambert shares his wisdom and reflections as a teacher with 40 years experience.

What made you choose teaching as a career and how long have you been teaching for?

My father and brother were both builders and I have had a passion for building and design since childhood. My grandmother's family have been traced back six generations as builders in England. I chose teaching and "Boys Craft" as it was called back then as I loved working as a craftsman and was also interested in Science, the other part of my qualifications. I started teaching in 1974 at Taperoo High - that's over 40 years ago!

I have had a few changes from teaching over those years, working as a storeman, foundation labourer, trainer of long term unemployed workers, carpenter/builder and meat worker.

Working with young people and introducing them to the world of learning by doing has always drawn me back to education.

What is the best part of being a teacher?

The best part of teaching for me is to follow the progress and work with students in such a huge and exciting growth time in their life, from Years 7-12. Following and working with bouncy, open, enthusiastic children on the cusp of being adults to the young adults who graduate.

I have a blessed position as I am able to work in an area that I love. Teaching in Design and Technology and previously in Doorways 2 Construction has enabled me to hand on skills that are a part of me and has enabled me to teach students by reaching students who do not otherwise fit into recognised academic patterns, enabling their success and progress.

What is the worst part of being a teacher?

A downside of teachers is that we all love to talk and meetings, and our need to talk can get in the way sometimes. I much prefer listening!

What is your most memorable moment as a teacher?

Working with students in the outdoors - I have led surfing trips to Kangaroo Island, snow trips to Victoria and New Zealand and fishing trips to Yorke Peninsula.

When I'm not teaching, you can find me

Surfing, fishing, walking, gardening, online shopping (ebay is my favourite!).

What is a passion, skill or interest that people would not know about you?

I am a beachcomber. I collect shells and pieces of junk and driftwood from beaches wherever I go. I started on the beach at Brighton and Seacliff when I was little and have picked up things from around the world since then. The things represent no monetary value but the beauty that I see in them and the memories they trigger. My ironstone rocks from Arno Bay, the fossil sea creature from Half Moon Bay, the twisted driftwood scrap from Medewi are all junk but I like them.

JAPAN TOUR 2018

Tatachilla Lutheran College Japan Tour 2018 – Applications Now Available.

We are delighted to announce that applications are NOW open for the 2018 Tatachilla College Japan Tour. This tour will take place from 7-22 April 2018 (Term 1, Week 11 and first week of school holidays).

The tour is available to all Years 9, 10, 11 and 12 students studying Japanese in 2018 and an information night will be held on Monday, 26 June 2017, 7-8pm in the school Activity Centre. Application forms for students are available from Middle/Senior SSO or from the College Japanese Teachers, Mr Jeffrey Wong, Mr Peter Ward or Mrs Edwinna Lee. Applications are due back by the end of Week 1, Term 3. This is a truly wonderful opportunity for students to be involved in.

Mr Peter Ward
LANGUAGES COORDINATOR

from the head of **MIDDLE SCHOOL**

LEARNING AND GROWING IN YEAR 7 AT TATACHILLA

We are delighted to share with you the learning and growth of our Year 7 students as they have transitioned in our community this year. This was evident in their recent Ancient Rome Museum Exhibition where they researched an aspect of living in this time in history and designed an artefact and presentation of their findings. The creativity, innovation and confidence in their presentation skills were outstanding. Parents who attended the exhibition were so encouraging of everyone's projects:

Fantastic work everyone! We had a great time going through each classroom checking out all the amazing creations. It was like walking through a History Museum. Natalie Harrison

The students did an amazing job! It was so lovely to see, touch and read about their work. Thank you for organising the evening and well done to all students! Belinda Brown

Our staff collaborate together to create meaningful and rich learning experiences where the skills that students develop can be transferred across all of their learning areas. We certainly see the capabilities of our young people shine in exhibitions for learning such as this.

Congratulations to all of our Year 7 students for the courage and risk taking they have taken in their learning as they start to call Tatchilla their home this year.

YEAR 7 STUDENTS SHINE IN OUR COLLEGE'S MUSICAL - MARY POPPINS

Congratulations to the following Year 7 students who auditioned for the Musical at the start of the year and were selected to be a part of Mary Poppins:

Ruby Morosini, Georgia Warren, Kaci Petagna, Annabelle Paxton, Poppy Anthony, Daisy Bright, Kimberley Howlett and Phoebe Morgan.

Many of these students were new to Tatchilla this year and it was great to see their sense of belonging and relationship grow by being involved in this production.

Many of these students are continuing their performance skills in the Middle School Dance Teams for the remainder of the year.

SAPASSA SPORTING TEAM SUCCESS

Through newsletter and our Facebook page you can see how our Year 7s are flourishing on the sports field this winter season. Through regular weekly training sessions our girls and boys are strengthening as a team and pursuing excellence through this team approach.

Well done to our AFL football, soccer, netball, basketball, cross country and swimming teams as they have progressed through many rounds of the knock-out competitions and district level representation and have represented the College with pride and integrity.

Ms Sarah Hoff-Zweck
HEAD OF MIDDLE SCHOOL

from the **MIDDLE SCHOOL**

YEAR 7 ZOO EXCURSION

As part of the Year 7 experience the Year 7s attend the Adelaide Zoo with a specific Science focus. After discussing animal categorisation, the students made the journey into the Zoo to put their theoretical knowledge into a practical context.

This year we were blessed with a warm sunny day that saw many of the animals come out of hiding and into the sun. The monkey's were very active and generated a great deal of conversation.

"I loved the different kinds of animals and it is the first time I have ever thought about the huge number of animals in our Zoo."

"Hippos, Meerkats and Giraffes. Wow! What a great day. It was like being in Africa."

"I had heaps of fun on the playground and liked the nocturnal house and spiders. "

"I was amazed at the amount of trees and plants that were also at the Zoo. I always thought the Zoo was a place for animals but it is also a Botanic Park".

A major part of this excursion is introducing the students to the many types of species on the planet. The Zoo offers a wonderful opportunity to view a wide variety species in enclosures that replicate their native habitats.

We extend a big thank you to the Science department especially Mrs Kathy Best for organising this excursion for our group. We learnt a lot and had a great day with our teachers.

Mr Mike Ebert

YEAR 7 COORDINATOR

YEAR 7 DISCOVERY DAYS

On Friday Tatachilla hosted a group of 36 Years 5 and 6s from surrounding schools who are considering joining our college community in Year 7.

To offer them a glimpse of the amazing things Tatachilla offers we immersed them in school life for a morning. While here they visited the Eco-Classroom and had a lesson learning about the micro-organisms that inhabit the waterways. This was followed by an exciting music program which had students creating drumming beats by using natural objects like logs, sticks, and dirt.

As Science is such a big focus of our school our visitors also got to meet our very own mad professor (Mr Tom Harms) and got to fire Bi-Carb rockets, some of these reaching amazing heights. Mr Jim Brown also gave a talk on our 3D printers and gave each of the visitors a 3D printed keep sake to remind them of their visit to Tatachilla.

We extend a big thank you to Mrs Kristy Burns, Mrs Hannah Marsland, Mr Jim Brown, Mr Tom Harms as well as our Science SSOs, Mrs Zena Hickling and Mrs Jacki Victory for setting up the materials needed for the Bi-Carb rockets. Also the behind the scenes work of Mrs Mel Hall, Mrs Kay Digby and Mrs Christine Martin.

We hope to see many of our visitors return to us to continue their schooling in 2018 and beyond.

from the **JUNIOR SCHOOL**

FROM THE HEAD OF JUNIOR SCHOOL

On Monday night, Junior School students participated in the Music Performance Evening. It was another wonderful display of the learning that takes place in the College, and a time for the parents and friends of the students to come together and celebrate the musical journey each child is on.

Students of all ages and abilities walked confidently to the piano, or took their place at the centre of the room, with their guitar, trumpet or other instrument. Some launched into their piece with little hesitation; others seemed to take a deep breath to steady their nerves. When a mistake was made, without exception, the children were able to recover and continue their performance. For me, this was a notable part of the evening. This ability to regroup and bounce back, is a demonstration of resilience. Apart from the many skills, knowledge and understanding that comes from learning a musical instrument, there is also social and emotional learning. Rather than letting the small error defeat them, the children carried on, and receive a hearty round of applause from the very sympathetic audience. I was willing each of them on to do their best.

Congratulations to all students who took part. I would also like to acknowledge the support parents give to this extracurricular activity. Clearly you see the value of it in your child's life - and you are also the ones who encourage regular practise and provide the valuable instruments.

Thanks also to Mrs Sue Matena, Mrs Chris Koop and Mr Joshua Koop for organising such a successful and enjoyable evening.

Mr John Dow
HEAD OF JUNIOR SCHOOL

THE BENEFITS OF MINDFULNESS IN SCHOOLS

Mindfulness is the practice of quieting the mind and bringing attention to the present. Just think about that. How often, during a day, do you get to quiet your mind and focus on the present? When is your mind still and not racing ahead to future happenings, or ruminating on past occurrences? New research indicates numerous benefits of mindfulness for school aged children: better sleep habits, boosting concentration, and reducing stress and anxiety. It can even have a flow on effect of lowering disruptive and bullying behaviour in schools. In the Junior School weekly Mindfulness sessions lasting 5-10 minutes are provided on Wednesday mornings at 8.30 in the Activity Centre. It has been great to see students, their parents and staff members start their days by having a time of being mindful. Additionally, mindfulness is used in several classrooms with teachers reporting benefits of greater concentration and increased output from students. One teacher mentioned that doing a 5-10 minute mindfulness activity with their class means the class then completes 45 minutes worth of a learning task in 30 minutes. If you're interested in mindfulness the Smiling Mind app is a good place to start, and all members of the community are welcome to join the Wednesday morning mindfulness session in the Activity Centre.

Mr Damon Prenzler
ASSISTANT HEAD OF JUNIOR SCHOOL: WELLBEING

JUNIOR SCHOOL CHALLENGE4CHARITY DETAILS

Challenge4Charity will take place on Tuesday 4 July (the last day of Term 2 for students). The charity that we will be raising funds for this year is the Adelaide service of Orange Sky Laundry.

- Tuesday 4 July is a casual day, and all students are encouraged to dress with the theme: "Pyjama Party/ Warm and Comfortable". An added challenge is for students to creatively incorporate something orange into their outfit. Gold coin donations will be collected in class in the morning for the privilege of wearing casual clothes.
- Junior School students will be able to order a BBQ lunch prior to the day and order forms have been distributed. In addition, students may wish to purchase something from the 'Sweet Treats' Stall at the cost of 50c-\$1. A number of free activities will also be available.
- Years 5 and 6 students will be invited to join 5-6 activities on the oval, and stalls will vary in cost between 50 cents and \$5 (for the 5-12 photo booth).
- A suggested amount for R-4 Students is \$5 to cover the costs of the day, Year 5 and 6 students may like a little more.

We would love your help with our 'Sweet Treats' Stall. How can you help? We need some yummy goods to be baked for the day! Some ideas include:

- Cupcakes (with orange icing to fit in with our theme)
- Jelly cups with a Freddo Frog
- Honey Crackles
- Caramel Slice
- Rocky Road
- Muffins (chocolate, vanilla, banana)
- Other slices, cakes, and biscuits

All items must be packaged and must have labels with their ingredients. There will be a drop off point in the Junior School SSO on the morning of Challenge4Charity (Tuesday 4 July). We would love to receive your sweet treats and support for our charity event!

JS ASSEMBLY

The final Junior School assembly for this term will be held next Tuesday morning in the College Gymnasium at 9am. All parents and friends are welcome to attend.

from the JUNIOR SCHOOL

YEAR 1S EXPERIMENTS

The Year 1s are inquiring into the key idea that 'everyday we experience materials and light with specific features that may change'.

We engaged in a week of 'experiments'! Each day, we used our five senses to experience different foods before and after they were changed.

We experienced raw spaghetti and recorded our observations and experiences. We then changed the spaghetti by cooking it and then recorded our new observations and experiences.

We also experienced corn kernels and recorded how these changed when cooked into popcorn. We experienced water and then froze it to make ice cubes.

We experienced chocolate and we melted it by putting it into a small snaplock bag and rubbing it between our hands.

Now, we are exploring light and how this changes throughout the seasons.

Ms Stephanie Harvie and Miss Lauren Neuman
YEAR 1 TEACHERS

JUNIOR SCHOOL LEGO CLUB

In Term 3, we would like to offer the students in the Junior School a "Lego Club" at lunchtime.

We are seeking donations of pre-loved Lego. Any amount, no matter how small would be greatly appreciated.

Donations can be left in the Junior School SSO.

Thank you for your contribution.

Mrs Jo Kolencik
JUNIOR SCHOOL STUDENT SERVICES

community NOTICEBOARD

TENNIS COACHING - Adam Fonfé Tennis is coaching tennis to all levels under the covered courts of Tatachilla Junior School. Adam Fonfé is an internationally and Australian certified coach with over 20 years coaching experience. He will run sessions before and after school. If interested please contact Adam on 0478 214 362, adamfonfe@hotmail.com

NANNY NEEDED - Nanny required to look after children while parents travelling for work. Phone Alice Terry on 0477231206 for more information.

MENINGOCOCCAL B STUDY - Final clinic sessions are now available to students who were unable to attend their scheduled school visit. To book email the day, time and the clinic to immunisation@onkaparinga.sa.gov.au

RSVP with the date of the clinic you wish to attend by Noarlunga Clinic, City of Onkaparinga, Ramsay PI, Noarlunga Centre - 21, 28 June 2017, 4-7pm

Alexandrina Clinic, Alexandrina Council, 11 Cadell St, Goolwa - 21 June 2017, 10:30am-12:00pm

around the **CAMPUS**

CHALLENGE4CHARITY 2017

Challenge4Charity will be held on Tuesday 4 July. The dress-up theme for 2017 is "Pyjama Party/Warm & Comfortable". Please ensure students have appropriate clothing to wear.

Students will be able to participate in various events and challenges throughout the day. Junior School students will have the opportunity to order lunch prior to the event, and Middle/Senior School students can choose from a range of food options on the day.

There are many challenges and fundraisers that students can get involved in, in the lead up to the day. We suggest you have a conversation with your children about what is a reasonable amount for them to donate.

This year's proceeds will go to the Orange Sky Laundry.

Orange Sky Laundry is the world's first free mobile laundry service for the homeless. Operating 11 vans services across Australia and does over 6.9 tonnes of laundry every week. However most importantly, has over 1,300 hours of positive and genuine conversations every week.

The incredible connections built between the Orange Sky volunteers and those in need has seen a strengthening in relationships and independence. Orange Sky have been able to touch the lives of those in need in a richer, more meaningful way.

Should you wish to make a contribution, there is a loose change jar in the College Admin Office, or you are welcome to contact me at the school. Please join us in supporting Orange Sky Laundry this winter!

ENTERTAINMENT BOOK

NOT ALL GOOD BOOKS COME TO AN END...

The 2016 Entertainment™ Book expired on 1 June 2017.

The good news is that the sequel is here, and you can enjoy the many valuable offers in the latest edition.

BUY YOUR NEW BOOK NOW!

Selling for only \$70, the new 2017 Adelaide Entertainment™ Book is packed with hundreds of up to 50% off and 2-for-1 offers from the best restaurants, cafés, accommodation, attractions and activities. Plus, \$14 of your book purchase goes towards our fundraising for Tatchilla Lutheran College.

If you wish to purchase a book you can make payment by cash, cheque (payable to Tatchilla Lutheran College), credit card via the College Office using the payment slip enclosed with the book or via credit card online at www.entertainmentbook.com.au/orderbooks/161f869

RETURNS

Families who **DO NOT** wish to purchase the book but would like to contribute to this fundraising activity can do so by donating the fundraising component (\$14) directly to the College via a separate envelope.

Please note that the book **MUST** be returned to the College Office by **FRIDAY 30 JUNE 2017** for a full refund.

For further information contact Kay Digby on 8329 4411.

RECEPTION AND YEAR 7 VACANCIES 2018

Additional enrolment vacancies are now available in Year 7, 2018 due to the introduction of an additional class!

For more information please visit our website or contact Mrs Christine Martin, Enrolments and Administration Officer by emailing cmartin@tatchilla.sa.edu.au or phone 8323 9588.

from the SPORTS FIELDS

OPEN GIRLS AFL FOOTBALL

On Tuesday 13 June the Open Girls Football Team traveled to Sacred Heart College. First up we met tough competition against Sacred Heart, but the girls held their own and played some strong fast footy. Unfortunately we went down with Sacred Heart winning by 15 points.

We went on to play back to back games against Cardijn, where once again the girls went out firing. We stayed with them the entire four quarters and were up at half time by 3 points. The game resulted in a draw and went to golden goal. The girls were very tired but worked so hard to try and get that final goal. Unfortunately Cardijn managed to get the final goal. The girls fought hard and gave it their all, they should be very proud of their efforts!

Airlie Schirmer
TEAM MEMBER

SAPSASA STATE CARNIVALS 2017 – AUSTRALIAN FOOTBALL AND NETBALL

Congratulations to Tatachilla netball athletes **Abigail Hodge, Grace Deacon, Hannah Nelson, Isabella Kolencik, Jade Deacon** and **Sascha Spoor** and football athletes **AJ Krause, Connor Roberson, Noah Gaskin, Taylor Goad** and **Will South** who took part in last week's SAPSASA Australian Football and Netball Carnivals.

The SAPSASA Onkaparinga South District Teams were competitive and stood up proudly in stiff competitions. Our Australian Football Team finished equal seventh in Div1 with teams from City South and Lower Eyre Peninsula. Our Div 3 netballers finished equal seventh with Torrens River, and the Div 7 team finished third.

Special thanks to team officials John Humphries, Kristie Hentschke and Rhonda Fielke. Our district representatives were fine athletes - a credit to their families and schools.

Miss Tonia Fielke
5-12 SPORTS CO-ORDINATOR

OPEN GIRLS BASKETBALL

On Friday 16 June Tatachilla travelled to Morphett Vale to compete in the Knock out Open Girls Basketball Competition.

After a slow start the girls warmed up and played a competitive game against Reynella East. After half time the girls started to gel well together and played some good basketball. Tatachilla defeated Reynella 42-29 with a shot by **Halle Njoroge** on the buzzer from over three quarters of the way down the court.

The girls struggled to get started in the second game and found it difficult to rebound and put shots up. Even though the girls continued to battle through the game and do everything they could. Cardijn had too good of a start and Tatachilla were unable to close the gap. Tatachilla were defeated 42-25.

Team Memebers: **Chelsea Levy, Kiara Upitis, Emily Dunbar, Shenay Walker, Jamie Walker, Coko Njoroge, Halle Njoroge** and **Tahlita Buethke**.

Mrs Jenna Fowler
TEAM COACH

WEEK 2: 17th – 21st

EXCURSIONS

As per our Enrolment Policy, Kindy students are not able to be accommodated on excursion days because of limited spaces. On excursion days please arrive by 8.45am to allow us time to be ready for the excursion.

Each child will be given a Vac Care Hat to borrow while on excursions. This is to assist with safety, being able to easily identify our Vac care children while in a busy community environment. Children still need to bring their own sun smart hat to wear back at Vac care.

No spending money please.

HOURS: 7.30am – 6.30pm

COST: \$55.00

**Bookings received by
Wednesday 5th July will be reduced to
\$50.00 per session.**

Excursions incur a fee of \$15.00 added to account.

Excursion days everyone goes and numbers are capped.

FOOD & DRINK: Children will need to bring recess, lunch and plenty to drink every day. (Please provide a lunch that does not require heating.)

Please Note- There are no lunch orders and no spending money for lunch. Children must bring lunch with them each day.

Drinking water is available at all times. Please keep 'junk food' to a minimum as we need to keep within our Nutritional Guidelines. **A nutritious afternoon snack will be provided each day at around 3.30pm**

Children diagnosed with Anaphylaxis allergies attend our service and we support an allergy aware environment.

NUT FREE ZONE

FULL PAYMENT IS REQUIRED WITHIN 7 DAYS OF INVOICE.

Late payment will result in restriction of access to future Vacation Care Programs

CANCELLATION CHARGES AND CASUAL SURCHARGE

Your account will be charged for any booking that is cancelled or if your child/ren is absent UNLESS A DOCTOR'S CERTIFICATE IS PRESENTED by the end of that week. For cancellations, please call 0438761656 (OSHC Service).

Casual Bookings can be accepted with notice (if there is enough spaces) however, any bookings made during the holidays will be charged at the Casual Rate of \$55.00.

PLEASE NOTE: Bookings cancelled will still be charged at the booked rate. Additional bookings can be added but no "swapping" of days. This is due to staffing obligations and requirements.
