about SEQTA ENGAGE

4

SEQTA Engage provides parents with access to key educational information. In addition, teachers can share course and assessment information as well as allowing students to submit assessments. The options available may differ slightly in each sub-school.

Parents access SEQTA Engage through their login page by entering the username and password the school has provided.

SEQTA Engage is a web-based tool and is also available as an app for iOS and Android.

If you forget your password, select the 'Forgot your password' option. Enter your username and email address and select 'Reset password'. The SEQTA system will then send you an email with further instructions. If you need to re-set all your log-in details, email our ICT Services Team at ictservices@tatachilla.sa.edu.au.

1.2 ASSESSMENTS

Parents can view results and continuous feedback for any timetable period and subject through the Assessments page. The continuous feedback is written for the student and replaces formal written reports. Parents and students can expect each subject area to give four pieces of continuous feedback per semester.

Upcoming assessments are displayed for students and parents when a teacher has made the assessment 'visible' in their marks book. If the due date is red, the date for submitting work has passed.

The view of the upcoming assessments can be changed between cards or list.

Teachers may choose to upload resources to individual assessments to support students with the completion of a task. These documents can also be downloaded and viewed by parents.

1.3 VIEWING ASSESSMENT RESULTS

Teachers can also make students' marks and applicable comments visible through SEQTA Engage. Parents will be notified through email when results have been released.

Teachers can also give students the ability to submit their work electronically. Work submitted in this way can also be viewed with the results information by parents in SEQTA Engage.

Viewing the results information can be changed between Task view and Syllabus view. Task view will display results only. Syllabus view displays the assessment results, teacher comments, if provided, and any additional documents the teacher has uploaded for a student.

1.4 ASSESSMENT NOTIFICATIONS

To enhance communication between the school and parents, notifications are automatically sent via email.

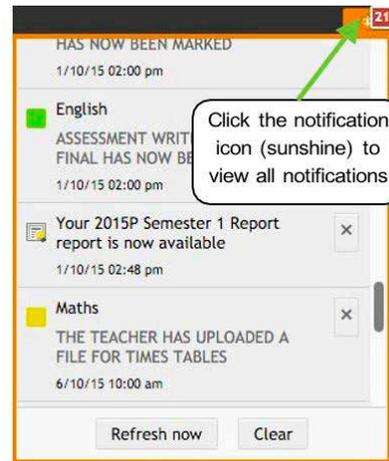

Notifications are sent when:

- a new academic report is available
- when there are changes to assessments/results that are visible, depending on assessment settings.

Notifications display in the top right of the screen (sunshine icon). Once clicked, a list of notifications will be visible. Clicking on a specific notification will take you to the actual section of the menu list.

The number of unread notifications is displayed on the notification in red.
