LOOK UP AND BEYOND IN THE MIDDLE SCHOOL IN 2018

CELEBRATING OUR YOUNG PEOPLE THROUGH THE SPECIALNESS PROJECT

The final year of Middle School in Year 9 provides many rich and deep experiences that challenge our young people to 'look up and beyond' themselves to use their strengths, beliefs and gifts with purpose and serve others. Employers in the workforce are asking for employees who know their strengths and are reflective thinkers and can apply new skills to transform existing knowledge into new ways of being.

This is the challenge we give to our Year 9s - a real world life project - through the Specialness Project. So what are we challenging our young people to do:

- Love what they do and identify their passions and talents
- Learn a new skill that showcases their passions or talent
- Connect with a mentor who is older than them and be inspired in the new skills they are developing
- Serve others through this process

We look forward to celebrating each of our young people's Specialness Projects and journey, but most importantly can't wait to see them realise the enormous capacity they have to be active participants in changing the world they live in and be a person of purpose.

Sarah Hoff-Zweck
HEAD OF MIDDLE SCHOOL

from the head of **SENIOR SCHOOL**

Can you believe that we are over a third of the way through the first term already? What was very new and unfamiliar just a few weeks ago has already begun to feel like a familiar routine for our students who have moved into the next year of their education.

Students in the Senior School are encouraged to start the year as they mean to go on as far as their work habits are concerned. As the term progresses, work expectations will increase and organisation becomes essential to the experience of success and wellbeing. Completion of homework and study, two very different activities, requires a systematic approach if it is to be completed meaningfully and in good time for examinations in Term 2.

Parents and carers can support good work habits at home by providing a designated, ergonomically sound and suitable work area that enables the student to work efficiently and without distraction. Contrary to some students' beliefs, multitasking is not conducive to success. In fact, attempting to address more than one task at a time simply dilutes the quality of work and quantity of output. If students are spending hours working on tasks at home with little productivity, it may well be that they are not planning their work time effectively. It could also mean that working on a device with Facebook and Snapchat, to name a few social media distractions, open and active is slowing the student down. It could therefore mean that your young person's bedroom is not the ideal place for effective study to take place due to the distractions of media that may be too tempting to ignore. Take some time to discuss home work habits with your son or daughter to assist them in developing sound and productive processes for working well.

ELEVATE EDUCATION STUDENT STUDY SEMINARS

In Weeks 3 and 4, Year 10 and 11 students attended the first of Elevate Education Student Study Seminars for the year that focused upon study skills. Feedback from students was positive with 98% advising that they found the session useful and 97% stating that they would recommend the session to a friend. Year 12 students can look forward to examination preparation as a focus for their study seminar prior to preparation for trial examinations.

Please ask your young person to share the interactive website provided by Elevate Education that enables them to access a host of information to assist with study, examination preparation or specific help with subjects. Students have log in details for the Student Portal for the following link.
<https://austudent.elevateeducation.com>

SACE STAGE 2 ELECTRONIC EXAMINATIONS

In order to create more authentic and relevant opportunities for assessment for students, SACE have begun developments in digital education that extend to examinations. In 2018 English Literary Studies, held on Wednesday 7 November, will be taken as an electronic examination. Throughout Term 1, the SACE Board will work closely with schools to prepare for this step forward. Professor Martin Westwell, Chief Executive of SACE Board SA explains that 'technical readiness, practice examinations, disruption contingencies and a like-for-like pen and paper examination are just some of the detailed planning requirements' that are being considered.

SENIOR SCHOOL PARENT INFORMATION SESSIONS

It was wonderful to see so many parents attend the recent Information Sessions for 2018. We hope that the materials and presentations provided were relevant and useful. Home Class Teachers appreciated the opportunity to spend some time with you and I hope you were able to meet fellow parents of students in the same Home Class as your son or daughter.

If you were unable to attend the sessions, an electronic copy of the information booklet provided has been made available via a link to our website. This has been sent to parents via email.

UNIFORM AND APPEARANCE EXPECTATIONS

The majority of Senior School students have presented themselves well at the beginning of the year. However, your support in reinforcing expectations with regard to piercings and jewellery in particular would be appreciated. Of some concern at the moment is the number of students without a sun hat. Tatchilla Lutheran College is a Sun Smart School and the expectation for sun safe behaviours applies to all at the College. As Senior Students and role models for those younger than themselves, it is important that our young adults follow our guidelines to protect their health. Please be advised that students without hats will not be permitted to remain outdoors at recess and lunchtime.

LOCKS FOR LOCKERS

We are in the process of replacing lockers for Senior School and students have been advised that they require a lock to secure their locker, especially since some are located outdoors. The required lock can be purchased through the Finance Office at the College. Please encourage your young person to attend to this matter as a priority so that expensive items such as laptops, graphic calculators and blazers can be secured safely.

SAVE THE DATE

A reminder of Term 1 important dates for Senior School:

Year 11	9 April	RAA Street Smart Excursion
Year 12	11-13 April	CRAVE Student Retreat

Mrs Marylyn Marshall

HEAD OF SENIOR SCHOOL

SPORTS DAY CARNIVAL

FRIDAY 16 MARCH 2018

9.00AM - 3.00PM

from the **SENIOR SCHOOL**

YEAR 12 CRAVE DAY

We all need to get a handle on a balance on life but especially students in Year 12! Our second Year 12 seminar explored “Work, Rest and Play” right in the heart of our own beautiful McLaren Vale.

Friday started with two sessions for the morning. Cameron, a second year out Physiotherapist from Physio Alive in McLaren Vale came and helped students with relief for tension headaches, better posture and massage techniques. Students massaged each other amongst lots of laughter and relaxation – well for most anyway.

The second session explored insights from past students **Josie Purton** (2017) and **Lachlan Barker** (2016) - via video link, (Lachie earned a golf scholarship to study in the USA at the Iowa State University) who addressed the group on what did or did not help them during Year 12 and the importance of finding their own organisational approaches and balance and to get Year 12 into perspective. ‘Yes it is important, but don’t neglect your friends or some down time for yourself’.

Mrs Tracy Templeman and Ms Courtney Blake also shared some wisdom with students based on the hundreds of students they have counselled, especially on the trap of taking on too much paid work during Year 12. What became evident was that many students felt they didn’t have the confidence to say no to their bosses. This would be a great discussion to have with your son or daughter in order to encourage their assertive responses to keep their lives in balance over this year.

After lunch students were greeted with a smorgasbord of experiences that aimed to explore ancient wisdom for rest and contemplation. Biblical wisdom that included, Jesus encouraging his disciples to ‘come away and rest’ from Mark 6:31 was supported by this common theme through several world religious traditions. No matter the activity, students were applying the principle of focussing on one thing as a means to relax and find rest from the insistent demands that could easily ‘drive’ us. Students silently had a hit of 50 golf balls or exerted themselves in a gym session where physical focus became a form of resting and break from the concerns of Year 12. Manicures with Coralie and Yoga with Michelle from Shanti Sound taught students about focus and rest whilst another two groups experienced coffee with friends or a bike ride out towards Willunga and back.

Students made their own connections with the day. Such connections allowed many students to “refresh and restart, letting you come at your work with a new view or angle” or, “Being able to complete this task allowed me to relax and almost reset my thinking so I could concentrate on goals”. Students made other connections to sport, “Absorbing yourself and focusing on just one thing is effective in bringing your mind to a relaxed state that can help with sport”. The seminar hit the mark helping students to make commitments to “find a balance between sport, social life, work and school”.

Mr Grant Wildman

YEARS 7-12 CHRISTIAN STUDIES COORDINATOR

from the head of **JUNIOR SCHOOL**

LIFE RULES

How many sausages should you eat at a sausage-sizzle? How many scones should you have at afternoon tea? Should your socks match your shoes or trousers? I know the answer to these questions and many others that I consider my Life Rules. I have lots of other life rules, even more silly than these. Schools have rules too. In the Junior School, we have our stick rules - sticks are for building; sticks belong to nature; and sticks are dragged, not carried. These are in place to keep our children safe as they build elaborate bases under the fir trees, and to guide them to play cooperatively with one another. We have the rule about wearing hats in Terms 1, 3 and 4 with a 'No hat. Play in the shade' policy.

In the first weeks of term, all classes establish rules or agreements to help them function as learning communities where all students share responsibility for the behaviour and 'climate' of the classroom. All groups, including groups of students, go through a process of developing group norms, which are guided by the rules or agreement they have developed. When a student or students do not abide by the rules, there is a consequence.

RECEPTION BIBLE PRESENTATION

During Week 3 Chapel, our new Reception students received a Jesus Storybook Bible as a welcome gift. The Receptions have taken these Bibles home to share with their family. The Jesus Storybook Bible presents familiar Bible narratives in an easy to read aloud format. Accompanying videos are also available.

PEER MEDIATION

On Wednesday our Year 6 classes attended a Peer Mediation session led by our Student Counsellor, Emma Thompson. The Peer Mediation Program provides the students with the opportunity to learn important life skills such as conflict resolution, cooperation, building perspective taking skills and problem solving.

IPAD USE

During our recent Junior School staff meeting, we agreed on some consequences for behaviours we would like to address regarding iPad use. The Australian Curriculum requires students to develop a sound ICT capability in order to solve problems and work collaboratively in all learning areas at school, and in their lives beyond school as ethical digital citizens. Students have all read and unpacked the iPad User Agreements at school, and participated in class-based conversations about how to use, store and transport their iPads responsibly. Establishing positive and productive habits for all aspects of being an iPad user is essential.

While most students develop positive digital citizenship behaviours and habits quite easily, some students test the boundaries. In cases where students use their iPads at school inappropriately, the logical and clear consequences will be implemented. iPads must stay in school bags before the start of the day and after school. Students who don't have iPads in their bags during these times will have their iPads removed and taken to the ICT Services Department until either the end of the day, or the next school day if an after school occurrence. Students who are off-task when using the iPad in class, that is, on a game or app that the task does not require, will have their iPad confiscated for a period of time. Please refer to your year level blog for the details, and your child's class teacher can give you more information about this if required. This week, all classes will revisit the IT User Agreement to ensure all students are familiar with it and the expectations outlined. The life rule here is - when at school, iPads are for learning. And the answer to my life rules above are: two, one, and they should match your tie.

LIFE EDUCATION VAN

Next week from Monday to Wednesday all R-6 students will participate in a session run by the Life Education team.

SWIMMING DATES FOR 2018

All Junior School students will be taking part in a swimming program for 2018. Please make a note of the various dates for each Year level:

Years 3-6 Tuesday 3 April - Friday 6 April

Years 1-2 Monday 7 May - Friday 11 May

Reception Monday 22 October - Friday 26 October

COLES SPORTS FOR SCHOOLS

Tatachilla Lutheran College is participating in the Coles Sports for Schools Fundraiser, where our school has the opportunity to gain some fantastic sports equipment.

If you shop at Coles supermarkets, you will receive a voucher for every \$10 you spend.

Please either post the vouchers in the box provided at your local supermarket or place in the boxes provided around the school.

from the JUNIOR SCHOOL

CURRICULUM MATTERS

SEEK FRESH HORIZONS

Teaching and Learning: 'Is personalised, innovative and challenging.'

At the recent Junior School Parent Information Session, John Dow spoke about what Seek Fresh Horizons (SFH) means to the College and all of us in this learning community. The blue grape on the SFH icon represents Teaching and Learning. I love this colour choice as it reflects the place where the blue sea and blue sky meet - the horizon. And our school theme for 2018 is "Look Up, Look Beyond." Learning is all about equipping ourselves as students and teachers for the present, and the future - whatever is out there on our horizon when we look up and look beyond the immediate.

Teaching and Learning is described as being 'personalised, innovative and challenging.' This week's article focuses on the personal aspect of learning. How do we do this? By knowing our students well in all aspects of their school lives; by knowing their interests and passions, and regularly checking in on their learning; by investigating what students know, need to know, want to know, and making adjustments to the teaching and learning program accordingly.

One of the best examples I have seen recently of how learning is personalised came from **Madeline Belton** in Year 1, who a couple of weekends ago created her own version of our school theme "Look up, look beyond." Her picture and explanation of her understanding of multiple layers within it are indeed personal and meaningful for her, and a demonstration of what personalised learning looks like.

"All the different planets fly around in my brain. The Puppy Planet is saying 'look up, look beyond.' The big planet is Australia and I've got Planet Darwin and Planet Japan. I learnt about Planet Japan in Japanese last year. And the Love Planet carries all the love in my heart. 'Live Love Learn' is the sign on our chapel stage. It means to me that 'live' is when I like every part of what I do with my Mum and Dad; 'love' is when I try and make it better when someone is hurt; 'learn' is when I learn different things I don't know from Miss Neumann like numbers and letters. The little alien saying 'Jon' is Pastor Jon. I drew it on the weekend because I like galaxies and it reminds of love spreading everywhere."

I think learning is wonderfully personalised for and by Madeline.

Mrs Ali Thacker

ASSISTANT HEAD JUNIOR SCHOOL: TEACHING & LEARNING

from the SPORTS FIELDS

SPORTING ACHIEVEMENTS

Congratulations to the following students on their individual sporting achievements.

Jordan McMillan, Yr 9 continues her successes competing at the State Championships and breaking the U14 200m state record. Jordan's time was quick enough that she can now run in the Open Women's Australian Championships and Commonwealth Games trials.

Ben Schroeder, Yr 10 achieved his Surf Life Saving Bronze Medallion on Sunday 18 February. Ben has been a nipper at Chiton Rocks Surf Life Saving Club since he was 8 years old and has grown up on the beach learning swimming and first aid skills. He is now qualified to patrol the beach and carry out rescues.

Paige Cranage, Yr 9, Matilda Ebert, Yr 9 and Xabian Cederblad, Yr 11 recently competed in the School Sport SA Triathlon held at West Beach. Paige came third in the Intermediate Girls, Matilda achieved seventh in the Junior Girls and Xabian Cederblad sixth in the Intermediate Boys category. We are super proud of your efforts!

meet our NEW STAFF

SHANE CARTER: MATHEMATICS & SCIENCE TEACHER

1. What was your most recent position before starting work at Tatachilla?

I worked as a geophysicist in the oil industry for 20 years, mostly in various parts of Africa.

2. What attracted you to Tatachilla?

I really wanted to work in what I have long considered to be my own community.

3. What brings you the most joy working in schools?

Being part of such a vibrant community and being able to help young people succeed

4. What do you look forward to in the coming weeks?

Getting to know my students and seeing them take satisfaction in their success.

5. What piece of wisdom would you want to pass on to your students?

Keep your options open – don't just take what seems like the easy path!

JESS FELGENHAUR: ART TEACHER

1. What was your most recent position before starting work at Tatachilla?

Last year I taught Visual Art for Years 6-12 at Yorketown Area School on the Yorke Peninsula.

2. What attracted you to Tatachilla?

I completed my education at Tatachilla (2009) and knew that it'd be wonderful opportunity to come back and teach. Tatachilla provides so much support for young people in the Arts, helping them develop their creativity.

3. What brings you the most joy working in schools?

What brings me joy the most is when students, who don't think they've got any 'artsy' ability, complete something they're proud of. It's the aha moments!

4. What do you look forward to in the coming weeks?

Throughout this term, I am looking forward to getting to know the students more and seeing them develop their creativity.

5. What piece of wisdom would you want to pass on to your students?

Everyone has the chance to express their creativity, you just have to be open to trying new things.

EMILY THOMPSON: MIDDLE SCHOOL TEACHER

1. What was your most recent position before starting work at Tatachilla?

Before working at Tatachilla I taught Year 4 in a North London school.

2. What attracted you to Tatachilla?

I attended Tatachilla myself (2003), so it was a great honour to be able to come back and teach in a community that I have been a part of for almost 20 years now.

3. What brings you the most joy working in schools?

Being a part of a community, building relationships with our young people and the other staff on this incredible team. I also love using a bit of creative flair when decorating my classroom and organising my lessons. I absolutely love my job!

4. What do you look forward to in the coming weeks?

The Year 7 Canberra trip is such an incredible highlight.

5. What piece of wisdom would you want to pass on to your students?

To make the most of every day at Tatachilla, because once you leave it will never be the same. Enjoy seeing your friends every day and making the most of every opportunity that this beautiful school has to offer!

KERRYN COVENTRY: JUNIOR SCHOOL SSO

1. What was your most recent position before starting work at Tatachilla?

SSO at McLaren Flat Primary School

2. What attracted you to Tatachilla?

As a past parent of the College I love the supportive, caring community and the wonderful students and staff.

3. What brings you the most joy working in schools?

Working with young people, they are so inspiring!! That and watching them grow and progress both academically & socially.

4. What do you look forward to in the coming weeks?

Getting to know our wonderful students, families and staff and the challenges of a new position.

5. What piece of wisdom would you want to pass on to your students?

Try new things!! Don't be scared to try something new. Even if you think you won't be good at it. Remember everyone had to start somewhere.

2019 ENROLMENTS

2019 enrolments at Tatachilla will be closing soon. If you have a child who is yet to be enrolled, please submit your Registration of Interest Form now to Mrs Christine Martin, Enrolments and Administration Officer. Please download this form via our website or contact Christine Martin at the College.

p: 8323 9588 | e: enrol@tatachilla.sa.edu.au | w. tatachilla.sa.edu.au

from the **WELLBEING TEAM**

MINDFUL OR MIND FULL?

In 2018, Tatachilla is continuing to partner with Dr Catherine Johnson from the School of Psychology, Flinders University in her wellbeing research. Catherine is interested in adolescent mental health programmes that target common risk factors across anxiety, depression and eating disorders.

The current research has a mindfulness focus, teaching students about emotions, thoughts and self-criticism, and how to steady themselves in stormy situations.

This year we are continuing to test whether learning mindfulness is more effective with early adolescents (before social and academic stressors increase) or whether this approach gains more traction when students are slightly more mature and see its relevance. We are testing a promising 8 lesson program from Belgium not yet available elsewhere in Australia with randomly selected Year 8 and Year 10 classes and other volunteer senior students. Students who don't receive the program this year will be invited to a free mindfulness workshop with parents and siblings early next year. (If your child took part in 2017 we will be advertising these workshops soon for Term 2). As we find proven effective ways to immunise our children against mental health issues, this will be built into the curriculum at Tatachilla.

GOOGLE DRIVE

Google Drive is a tool for collaboratively editing docs and syncing files online. Creation of Docs, Slides or Sheets and storage of files on Google Drive ensures that student work is effectively and efficiently stored online reducing the need for manual back-up of student work. All students in Year 7-12 are expected to store school work in Google Drive. Further information on how to assist your child in using these tools can be found at www.tatachilla.sa.edu.au/learning/elearning

**WELCOME TO OUR NEW
MIDDLE SCHOOL STEM
FACILITY WHERE YOUNG
PEOPLE CREATE, MAKE
AND INNOVATE.**

If I was a guest visiting the Middle School STEM area what would I see students doing?

Students will work in a variety of contexts including whole class and small group instructional and project based learning to create meaningful connections in learning. Students will utilise flexible furniture which can be relocated, used outdoors or rearranged to suit the learning at the time.

How would students be using digital technologies and equipment to design, innovate and create?

Cross-curricular and interdisciplinary learning allows students to use new technology such as 3D printers to design, print and construct items through skills developed in Digital Technologies. The items can then measure, record and analyse results utilising skills learnt in Science and Mathematics.

How might what they do in the new building differ to what they're able to do now?

Students will undertake the new digital and design technologies curriculum, focussing on the 'design, make and appraise' process which can be applied in other subject areas. Collaborative teacher planning will enable students to conceptually learn in deeper ways with students sharing their learning through exhibitions to parents, peers and staff.

FIREWORKS

FRIDAY, 23 MARCH 2018 4:30PM - 9:00PM

Tatachilla Lutheran College will come alive on Friday 23 March as the College stages its annual Twilight Food affair. The Twilight Food Affair is one of the College's major events for the year and promises to be an enjoyable night for the school community.

Held on the College grounds from 4:30pm til 9pm (note the slightly later start time) there will be an opportunity to enjoy an array of food and refreshment stalls, live entertainment, fun activities and the fireworks finale. A fabulous night for the whole family.

Please note as per conditions of our liquor license strictly NO BYO alcohol or glass items are permitted on the grounds.

CAN YOU HELP?

SPONSORSHIP

A variety of sponsorship opportunities are still available, including donated items for raffle prizes, wine supplies for the Wine & Beer Stall and product supplies for one of the stalls.

VOLUNTEERS/HELPERS

A number of volunteers are required to help bring Twilight Food Affair to life! If you are able to assist on a stall or help with the set-up/pack-up please contact Mrs Sally Moran at the College or email sally.moran@tatachilla.sa.edu.au

ENTERTAINERS

ROAMING BUSKERS

Calling for entertainers (jugglers, magicians, and acrobats) interested in being part of a group of roaming performers to entertain the crowd. Equipment supplied.

PERFORMERS

Do you have a band or an act that you would like to promote on the big stage? We would love to showcase an array of talented artists including, soloists, bands, ensembles.

To register your interest please email your details to Ms Chris Majoros, christine.majoros@tatachilla.sa.edu.au

YOUTH ROUND TABLE

Do you live in the southern suburbs of Adelaide?
Do you want to have your say on issues that interest and affect young people in our community?

TUESDAY 20TH MARCH 2018

Amanda RISHWORTH MP

08 8186 2588 | Amanda.Rishworth.MP@aph.gov.au

I am inviting passionate and enthusiastic young people from your organisation to participate in my 2018 Southern Suburbs Youth Roundtable.

The Southern Suburbs Youth Roundtable is a direct communication avenue between young people in Adelaide's southern suburbs and myself as the local Federal representative.

The roundtable is a chance for young people in our community to get involved and have their say about issues that interest or affect young people in our community. The aim of the roundtable is to empower young people in our community to contribute their ideas at a local and national level, and at the same time develop their skills and discuss and share ideas with their peers.

This year I would like to invite youth from the community aged between 15 and 25 years to participate in my 2018 Southern Suburbs Youth Roundtable to be held between 4:30pm-6.00pm at the Woodcroft Morphett Vale Neighbourhood Centre on Tuesday 20th March 2018.

I encourage you to invite any young people from your organisation who may be interested in participating to register their interest by completing the form enclosed by Friday 16th March 2018.

[Click Here for the Registration form](#)

For any further information about this forum, please contact Michelle on 08 8186 2588 or email Michelle.E.Wilby@aph.gov.au

I look forward to working with our community's young leaders!

Yours sincerely

Amanda Rishworth MP
Federal Member for Kingston
Shadow Minister for Early Childhood Education and Development
Shadow Minister for Veterans' Affairs
Shadow Minister for Defence Personnel
